Clips

Clipper™ Molded Spring Clips

Here to solve your holding needs, these non conductive non-magnetic holding clips are great indoors and out. Our safety design reduces the potential hazard for injury and also helps guide the object into the clip to be properly held. These clips have hundreds of uses and come in standard black and white colors. There are seven different sizes to choose from several different sizes ranging in .375" to 2.125" holding capacity. Sample Part number: CLPR100-B = 1"Clip B=black or W=white

Item	Holding Range	Color
CLPR-025	.250" to .375"	Black or White
CLPR-050	.375" to .625"	Black or White
CLPR-075	.625" to .875"	Black or White
CLPR-100	.875" to 1.125"	Black or White
CLPR-125	1.125" to 1.375"	Black or White
CLPR-150	1.375" to 1.625"	Black or White
CLPR-175	1.625" to 1.875"	Black or White
CLPR-200	1.875" to 2.125"	Black or White

Custom colors and materials available for volume runs.
Fastener: #6 counter sunk fasteners.
Standard pack = 100.

Clip-Mate™ Extruded Holding Clips

This unique design and tempered B-Flex UV stabilized material making Beckson's clips the perfect way to hold many objects. The patented leg design provides permanent holding spring action for repeated use. These clips will not corrode in the environment.

Standard colors are black and white. Standard clips are punched for installation with a fastener (#6 pan) or may be unpunched and backed with adhesive tape for lighter installations. Standard length is 1.375". Standard pack=100.

Item	Holding Range	Color
CLIP#3/4	.678" to .875"	Black or White
CLIP#1	.875" to 1.125"	Black or White
CLIP#1.5	1.187" to 1.500"	Black or White
CLIP#2	1.500" to 2.000"	Black or White

Clip-Strip™ Extruded Maxi-Clip

Imagine the same dependable holding power of the Clip-Mate now available in custom lengths. Provided in any cut length from 1" to 96" long to suit your requirements. Great for holding pipe, lighting, light bulbs, and billy clubs to name a few. Please inquire for more details.
